IBRO Publications Committee

Chairman, A. D. SMITH; C. BLAKEMORE, R. LLINÁS, D. G. R. OTTOSON, D. P. PURPURA, P. G. STRATA.

Aims and Scope:
Neuroscience publishes papers describing the results of original research on any aspect of the scientific study of the nervous system. Since one of the chief aims of the Journal is to promote communication between neuroscientists, the type of paper most suitable for publication is that in which new observations are clearly and succinctly reported and in which the purpose of the study is made meaningful to scientists of other disciplines. Any paper, however short, will be considered for publication provided that it reports significant, new and carefully confirmed findings with full experimental details. For *Instructions to Authors* see Vol. 52, No. 1, pp. v–viii.

Production Editors: M. DAVIES, T. J. FISHER. *Editorial Assistants*: S. J. RUSSELL (U.K.), S. DUKE (U.S.).

Published 24 per annum, two per month (six volumes, 1993)

Publishing, Subscription and Advertising Offices:

Headington Hill Hall, Oxford OX3 0BW [Tel: (0865) 794141; Fax: (0865) 60285]

LIST OF CONTENTS

VOLUME 54 NUMBER 1 1993

LETTERS TO NEUROSCIENCE

A. Saria, J. Troger, R. Kirchmair, R. Fischer-Colbrie, R. Hogue-Angeletti and **H. Winkler** — Secretoneurin releases dopamine from rat striatal slices: a biological effect of a peptide derived from secretogranin II (chromogranin C) — 1

A. M. J. Young, M. H. Joseph and **J. A. Gray** — Latent inhibition of conditioned dopamine release in rat nucleus accumbens — 5

T. L. Steininger, D. B. Rye, M. A. Gilliland, B. H. Wainer, and **R. M. Benca** — Differences in the retinohypothalamic tract in albino Lewis versus Brown Norway rat strains — 11

COMMENTARY

M. Eddleston and **L. Mucke** — Molecular profile of reactive astrocytes—implications for their role in neurologic disease — 15

RESEARCH PAPERS

T. Behnisch and **K. G. Reymann** — Co-activation of metabotropic glutamate and *N*-methyl-D-aspartate receptors is involved in mechanisms of long-term potentiation maintenance in rat hippocampal CA1 neurons — 37

G. M. J. Ramakers, I. J. A. Urban, P. N. E. De Graan, M. Di Luca, F. Cattabeni and **W. H. Gispen** — The impaired long-term potentiation in the CA1 field of the hippocampus of cognitive deficient microencephalic rats is restored by D-serine — 49

H. Hirai and **Y. Okada** — Serine released from hippocampal slices during deprivation of oxygen and glucose enhances the effects of glutamate on neuronal function — 61

C. A. Netto, H. Hodges, J. D. Sinden, E. Le Peillet, T. Kershaw, P. Sowinski, B. S. Meldrum and **J. A. Gray** — Effects of fetal hippocampal field grafts on ischaemic-induced deficits in spatial navigation in the water maze — 69

O. Honmou, K. Sakatani and **W. Young** — GABA and potassium effects on corticospinal and primary afferent tracts of neonatal rat spinal dorsal columns — 93

D. L. Meinecke and **P. Rakic** — Low-affinity p75 nerve growth factor receptor expression in the embryonic monkey telencephalon: timing and localization in diverse cellular elements — 105

A. Pertovaara, R. Bravo and **T. Herdegen** — Induction and suppression of immediate–early genes in the rat brain by a selective alpha-2-adrenoceptor agonist and antagonist following noxious peripheral stimulation — 117

H. D. McCarthy, A. P. Kilpatrick, P. Trayhurn and **G. Williams** — Widespread increases in regional hypothalamic neuropeptide Y levels in acute cold-exposed rats — 127

M. Eybalin, G. Charachon and **N. Renard** — Dopaminergic lateral efferent innervation of the guinea-pig cochlea: immunoelectron microscopy of catecholamine-synthesizing enzymes and effect of 6-hydroxydopamine — 133

A. Gonzalo-Ruiz, J. M. Sanz-Anquela and **R. F. Spencer** — Immunohistochemical localization of GABA in the mammillary complex of the rat — 143

P. Sah, K. Francis, E. M. McLachlan and **P. Junankar** — Distribution of ryanodine receptor-like immunoreactivity in mammalian central nervous system is consistent with its role in calcium-induced calcium release — 157

H. G. W. Lidov, T. J. Byers and **L. M. Kunkel**	The distribution of dystrophin in the murine central nervous system: an immunocytochemical study	167
R. Yamamoto, D. S. Bredt, S. H. Snyder and **R. A. Stone**	The localization of nitric oxide synthase in the rat eye and related cranial ganglia	189
S. Brimijoin, V. Moser, P. Hammond, N. Oka and **V. A. Lennon**	Death of intermediolateral spinal cord neurons follows selective, complement-mediated destruction of peripheral preganglionic sympathetic terminals by acetylcholinesterase antibodies	201
Z. Rakonczay, P. Hammond and **S. Brimijoin**	Lesion of central cholinergic systems by systemically administered acetylcholinesterase antibodies in newborn rats	225
I. Nitsos and **S. Rees**	Development of immunoreactivity for calcitonin gene-related peptide, substance P and glutamate in primary sensory neurons, and for serotonin in the spinal cord, of fetal sheep	239
T. Karhula, S. Soinila and **O. Häppölä**	Comparison of immunohistochemical localization of [Met^5]enkephalin-Arg^6-Gly^7-Leu^8, vasoactive intestinal polypeptide and tyrosine hydroxylase in the major pelvic ganglion of the rat	253
K. Betito, J. Diorio, M. J. Meaney and **P. Boksa**	Glucocorticoid receptors in bovine adrenal medullary cells in culture: regulation by cyclic nucleotides	263
C. N. Wyatt and **C. Peers**	Nicotinic acetylcholine receptors in isolated type I cells of the neonatal rat carotid body	275

VOLUME 54 NUMBER 2 1993

LETTERS TO NEUROSCIENCE

G. Z. Mentis, L. Greensmith and **G. Vrbová**	Motoneurons destined to die are rescued by blocking *N*-methyl-D-aspartate receptors by MK-801	283

COMMENTARIES

G. J. Lees	Contributory mechanisms in the causation of neurodegenerative disorders	287
M. Popoli	p65-Synaptotagmin: a docking–fusion protein in synaptic vesicle exocytosis?	323

RESEARCH PAPERS

A. M. Thomson and **D. C. West**	Fluctuations in pyramid–pyramid excitatory postsynaptic potentials modified by presynaptic firing pattern and postsynaptic membrane potential using paired intracellular recordings in rat neocortex	329
A. M. Thomson, J. Deuchars and **D. C. West**	Single axon excitatory postsynaptic potentials in neocortical interneurons exhibit pronounced paired pulse facilitation	347
R. C. Lambert, F. C. Moos, C. D. Ingram, J. B. Wakerley, P. Kremarik, Y. Guerné and **Ph. Richard**	Electrical activity of neurons in the ventrolateral septum and bed nuclei of the stria terminalis in suckled rats: statistical analysis gives evidence for sensitivity to oxytocin and for relation to the milk-ejection reflex	361
E. C. Burgard, T. E. Cote and **J. M. Sarvey**	Muscarinic depression of synaptic transmission and blockade of norepinephrine-induced long-lasting potentiation in the dentate gyrus	377
G. A. Marks and **H. P. Roffwarg**	Cholinergic responsiveness of neurons in the ventroposterior thalamus of the anesthetized rat	391

P. S. Eriksson, M. Nilsson, M. Wågberg, E. Hansson and **L. Rönnbäck**	Kappa-opioid receptors on astrocytes stimulate L-type Ca^{2+} channels	401
C. Chiang and **G. Aston-Jones**	A 5-hydroxytryptamine$_2$ agonist augments γ-amino-butyric acid and excitatory amino acid inputs to noradrenergic locus coeruleus neurons	409
Z. Z. Pan, M. W. Wessendorf and **J. T. Williams**	Modulation by serotonin of the neurons in rat nucleus raphe magnus *in vitro*	421
Y.-Q. Li, M. Takada, Y. Shinonaga and **N. Mizuno**	Direct projections from the midbrain periaqueductal gray and the dorsal raphe nucleus to the trigeminal sensory complex in the rat	431
P. A. Lapchak, D. M. Araujo, S. Carswell and **F. Hefti**	Distribution of [^{125}I]nerve growth factor in the rat brain following a single intraventricular injection: correlation with the topographical distribution of *trk*A messenger RNA-expressing cells	445
C. Geula, C. R. Schatz and **M.-M. Mesulam**	Differential localization of NADPH-diaphorase and calbindin-D_{28k} within the cholinergic neurons of the basal forebrain, striatum and brainstem in the rat, monkey, baboon and human	461
D. A. Lewis, D. S. Melchitzky and **J. W. Haycock**	Four isoforms of tyrosine hydroxylase are expressed in human brain	477
J. M. Radke, C. Spyraki and **K. Thermos**	Neuronal release of somatostatin in the rat striatum: an *in vivo* microdialysis study	493
D. N. Abrous, K. Choulli, F. Rouge-Pont, H. Simon, M. Le Moal and **J. P. Herman**	Effects of intracerebral dopaminergic grafts on behavioural deficits induced by neonatal 6-hydroxy-dopamine lesions of the mesotelencephalic dopaminergic pathway	499
S. J. Wimalawansa and **A. A. El-Kholy**	Comparative study of distribution and biochemical characterization of brain calcitonin gene-related peptide receptors in five different species	513
J. R. Grider and **J.-G. Jin**	Vasoactive intestinal peptide release and L-citrulline production from isolated ganglia of the myenteric plexus: evidence for regulation of vasoactive intestinal peptide release by nitric oxide	521
A. Rueff and **A. Dray**	Sensitization of peripheral afferent fibres in the *in vitro* neonatal rat spinal cord–tail by bradykinin and prostaglandins	527
G. J. Birrell, D. S. McQueen, A. Iggo and **B. D. Grubb**	Prostanoid-induced potentiation of the excitatory and sensitizing effects of bradykinin on articular mechanonociceptors in the rat ankle joint	537
P. D. Kitchener, P. Wilson and **P. J. Snow**	Selective labelling of primary sensory afferent terminals in lamina II of the dorsal horn by injection of *Bandeiraea simplicifolia* isolectin B_4 into peripheral nerves	545
BOOK REVIEW **J. A. Temlett**	*Movement Disorders in Neurology and Neuropsychiatry*. Edited by A. B. Joseph and R. R. Young	553
